

Announcement

The Company ELLINIKI TECHNODOMIKI TEB S.A. announces that its subsidiary company AKTOR S.A. signed a contract with the company ERGA OSE S.A. for the construction of the New High-Speed Railway infrastructure Lianokladi-Domokos from kilometer position 14+000 until 25+000.

The budget during the study of the project stands at 324,000,000 € and the duration for the completion of the project is 48 calendar months.

The project includes:

1. Construction of five rail bridges of total length of 1,976 m.
2. Construction of tunnels of total length of 16,000 m. approximately.
3. Road construction projects.

Undertaking this project the backlog of AKTOR S.A. exceeds € 4 bn. It is worth mentioning that 67% of the aforementioned backlog concerns projects in Greece and the remaining 33% projects abroad, the contracts of which are developed REGULARLY within the provisioned timetables.
