Rehabilitation of infrastructure in 4 villages – Reforestation in the sacred ground of Ancient Olympia

Elliniki Technodomiki TEB – AKTOR Group, in the face of the national tragedy that struck Greece lately, has decided and proposed to the competent bodies to **privately fund the design studies and the reforestation and rehabilitation of the landscape in the sacred ground of Ancient Olympia.**

In addition, within the framework of the concessions' contracts to be implemented in Peloponnesus, the Group proposed to **undertake the cost for the rehabilitation of infrastructures and public spaces in two villages in Ilia, one in Arkadia and one in Messinia that will be recommended and assign to it.**

From the very start the Group has placed its human and equipment resources to the disposal of the State, which have helped and continue to participate in the efforts for dealing with the flaming nightmare.
